

# Logistic Regression

---

## Linear Regression:

- **Simple:**

$$y = b_0 + b_1 * x$$

- **Multiple:**

$$y = b_0 + b_1 * x_1 + \dots + b_n * x_n$$

# Logistic Regression

This is new:

We know this:

# Logistic Regression

# Logistic Regression

# Logistic Regression

$$y = b_0 + b_1 * x$$

Sigmoid Function

$$p = \frac{1}{1 + e^{-y}}$$

$$\ln \left( \frac{p}{1 - p} \right) = b_0 + b_1 * x$$

# Logistic Regression
